

JUST SAY YES.

Get a prostate cancer screening.

1 in 6 men will get prostate cancer.

Your chances of survival increase greatly with early diagnosis and treatment. All men should get screened every year beginning at age 40. Men who are African American, Hispanic or have a family history of prostate cancer are at highest risk, and should begin yearly screenings at age 35.

To receive a **FREE** prostate cancer screening:

- You must be 40 to 75 years old
- You must be 35 to 75 years old if you are African American, Hispanic or have a family history of prostate cancer
- You must not have been tested in the past 12 months
- You must not be under the care of a urologist

Appointment required.

Please contact the Lifespan Health Connection at **401-444-4800** or **1-800-927-1230** to see if you meet **FREE** screening requirements and to schedule your appointment.

For more information about our cancer services, go to **cancer.lifespan.org**.
